## LONDON YELLOWS ABUSE THUNDERER

Amusing Newspaper "Flip-Flop" Charges Sensationalism To the Times.

EMPEROR'S LETTER SECRET.

Government Decides to Keep Missive From Public Tavestigation Brings Forth Much That is Funny.

London, March 9. - The government nas decided to keep private the personal letter written by Emperor Wil-Ham to Lord Tweedmouth, first lord of the admiralty, in which it was charged by the London Times that his majesty attempted to influence legislation in the matter of the naval estimates of Great Britain. How this decision, which was announced in both houses of parliament this evening, will please the country remains to be seen. Since A. J. Balfour, speaking for the opposition, indorsed the policy of the cabinet, it may be predicted that the public may consider the incident PLAYING WITH FIRE.

PLAYING WITH FIRE.

The remark made by Lord Rosebery, that the nation was making itself rideulous over the affair, finds much support. The discussion today was brief and dry. All the participants proceeded asi f they were walking on eggs, for criticism of the ruler of another nation is delicate business. The fact that Lord Tweedmouth consulted Sir Edward Grey, the foreign secretary, before replying to Emperor William's letter, was the only new fact brought out, and it goes far to diminish the criticism of Lord Tweedmouth, because it relieves him of all suspicion of anything resembling disloyalty to the interests of the navy.

LECTURE FROM "YELLOWS."

LECTURE FROM "YELLOWS."

The character of Emperor William's letter is now generally understood. The specific passage is believed to be the reference of Lord Esher—that he had better occupy himself with drain pipes and keep his hands off the navy. Lord Esher was engaged in improving the draininge system of Windsor castle drainage system of Windsor castle when Emperor William was there re-

An amusing feature of the affair is that all the sensational newspapers of London are lecturing the Times for its sensationalism in exploiting the story.

Toledo, O., March 9 .- Judge Brough in the common pleas court today issued an order releasing from jail R. C. Lemmon, R. A. Beard and Joseph Miller, the ice dealers sentenced to six months for violation of the anti-trust laws. The men had served 37 days,

Counsel for the prisoners and the prosecuting attorney agreed that the court had authority to suspend the sentence if it was thought the ends of justice had been served.

The state declared that it would make

no objection to an order of suspension. It was argued that the families and business of the prisoners need them, and they had been sufficiently punished. It has now been nearly a conspiracy in restraint of trade,

## DEMOGRATS WILL OPPOSE MEASURE

Fowler Currency Bill Does Not Suit Minority, Who Favor Williams.

TO OFFER AS SUBSTITUTE

In Their Report, Members Say Proposed Act is Objectionable for Many Reasons Which Are Set Out.

Washington, March 9.-The Democratic members of the house committee on banking and currency today agreed to report to the house the minority currency bill, introduced by John Sharp Williams, as'a substitute for the

Fowler bill. In the course of their report, the mi-

ority says: We oppose the bill because it virtually takes from the government power to regulate and safeguard the national banks of the country and wholly gives over the control of such institutions to a board of managers which is selected by the banks them-

POINT OUT OBJECTIONS.

The minority also takes exception to he provisions of the bill requiring the retirement of greenbacks; complains that it makes banks the agents of the government for the transaction of all its business and urges the inadequacy of the interest charged. It is also charged that under action of the proposed law, all state banks and savings and trust companies would inevitably be driven out of business.

"With the banks all organized under one system, enjoying sole and complete power to issue all moneys as they deem proper, will there not be great danger either from contraction or inflation of the amount of money in circulation? they ask.

#### POWER CONFERRED.

"Will it not be in the absolute power of these banks, or their board of managers to make money scarce or to make it pientiful; to make the rate of interest high or make it cheap; to cause a depression or produce a relaxation? Surely Congress is being asked to delecte to the banks a most dangerous and wonderful power in giving them absolute control of the medium of all values, money, and in conferring on them the sole power to issue money in such quantities as they think wise. Without doubt the most serious proposition with which Congress has had to deal in many years is the regulation and control of the great corporations that have grown over-powerful and beyond the control of the government.

ANOTHER FEATURE.

"Yet, while we are planning ways whereby we may wisely and justly subject these great interests to government regulation, we are asked by the Fowler bill to create a banking system all-powerful, with complete and undisputed authority to issue the circulating medium of the country in quantity, in manner and at times to please those fortunate enough to enjoy this great special privilege."

The minority conclude by urging the acceptance of the Williams bill as a substitute for the Fowler bill.

President of A. N. P. A. Goes After The Scalp of One S. N. D.

North. New York, March 9 .- Charges of official dereliction are made against S. N. D. North, director of the consus, in a letter which has been sent to President Roosevelt by Herman Ridder, presi-dent of the American Newspaper Pub-lishers' association.

ishers' association.

Mr. Ridder charges that in a letter written to Representative Dalzell on the subject of news print paper prices for a period of 15 years, Director North gave a series of "false and misleading figures." He charges that the director falled to exercise diligence in seeking for information and that he used worthless and secondary sources of information.

#### A TAINTED REPORT.

"That letter has been used on the floor of Congress as an 'official publication.'" says Mr. Ridder in his communication to the president, "and it was declared by Chairman Payne of the ways and means committee to be as accurate as can be.'

as accurate as can be."
"I charge that the director of the census has issued, in that letter, a series of false and misleading figures and that, whether intentional or not, he has served the purpose of a group of combinations which are aimed to add \$60,000,000 per annum to the burdens of printers and publishers."

#### LEFT SOMETHING OUT.

He points out that in Director North's letter there is a lapse of three years for the period from Jan. 1, 1897, to Jan. 1, 1900, when paper dropped to \$32 a ton, or \$18 less than the present asking price. Mr. Ridder says that in those three years 20 mills were merged into the International Paper company. The letter says also "that the lowest price appearing anywhere in that extraordinary compilation of the director of the census is \$6 per ton in excess of the lowest price at which paper has been sold in New York," and that "no books of any large paper manufacturer will show such prices as are credited by Director North." He points out that in Director North's
